Rationale

There are occasions when severe weather conditions prevail or failure of services or a major incident occurs which may affect the operation of the school day. If such circumstances occur, staff, parents and students need to be aware of the procedures to be followed.

It is important accurate information is available from an appropriate source in order that staff, parents and students know where to access and follow the information provided.

As far as possible it is the school's intention to remain open unless circumstances prevent the school from operating.

Purpose

To provide guidelines to staff, parents and students covering a range of possible scenarios affecting the ability of the school to operate.

Guidelines

Unless the school has been closed following an announcement by the Headteacher or member of the school's Senior Leadership Team, it must be assumed that the school remains open.

In the event of severe weather conditions staff, parents and students may contact the following to ascertain whether the school is open or closed or operating in some modified form:

- School's main phone line answer phone;
- School's website – this must indicate whether the school site is open to both students and staff;
- Local radio stations:
 - Time FM 107.5 FM
 - Essex Radio FM 96.3 FM
 - BBC Essex Radio FM 95.3 FM/103.5 FM
- Contacting the school via a direct phone line to speak with a member of the school's Senior Leadership Team. Only this designated group is authorised to provide a statement upon the operational status of the school.

In cases where weather conditions delay attending school, a register will be available at the main reception for colleagues to sign on arrival. Staff must ensure that they use the site with extreme caution and wear suitable footwear and clothing. Staff and students must only use the cleared paths to navigate around the site. Car park to be used at staff and parents risk. The site staff will ensure there are suitable pathways to enter and exit the School site. Website use and updates will be made available on the intranet and internal email system throughout the period of inclement weather.

Following closure of the school during a school day staff, parents and students will be expected to follow the guidelines described above under severe weather conditions for the next day.

In addition to severe weather conditions there may be occasions when the school suffers a service failure. This can take a number of forms including fire, electricity, gas, water, heating etc. Any of these service facilities may affect the school to operate. Guidelines for such possible failures are those described for severe weather conditions.

It is more apparent when severe weather conditions occur than a localised service failure. The school will make every effort to inform staff, parents and students about such failure and the status of the school under these circumstances using the guidelines described above.

Every effort is made to determine the best and safest decision on cancelling or not cancelling school because of adverse weather. Please take the time to read this information. Taking the time to acquaint ourselves with the procedures of the policy will assure the safety of our students.

Emergency Closing Procedures

School Cancellation - If the decision is made to cancel school please refer to the points detailed above. All decisions will be made by the Headteacher with full consultation with the governing body.

Early Release - If school is in session and hazardous conditions develop during the day, a decision may be made to dismiss students early.

Section 17 Emergency Contact Number – School Closure

Dagenham Park Church of England School uses both a website and a text message system to pass on information to staff and students in the event of a school closure. The school's DCSF number is 301 4704.

Telephone: 020 8270 4400
Facsimile: 020 8270 4409

Section 18 Internal actions

Layout of strategic plan to deal with adverse snow conditions

Identified areas to be gritted by LoR FM and school site team.

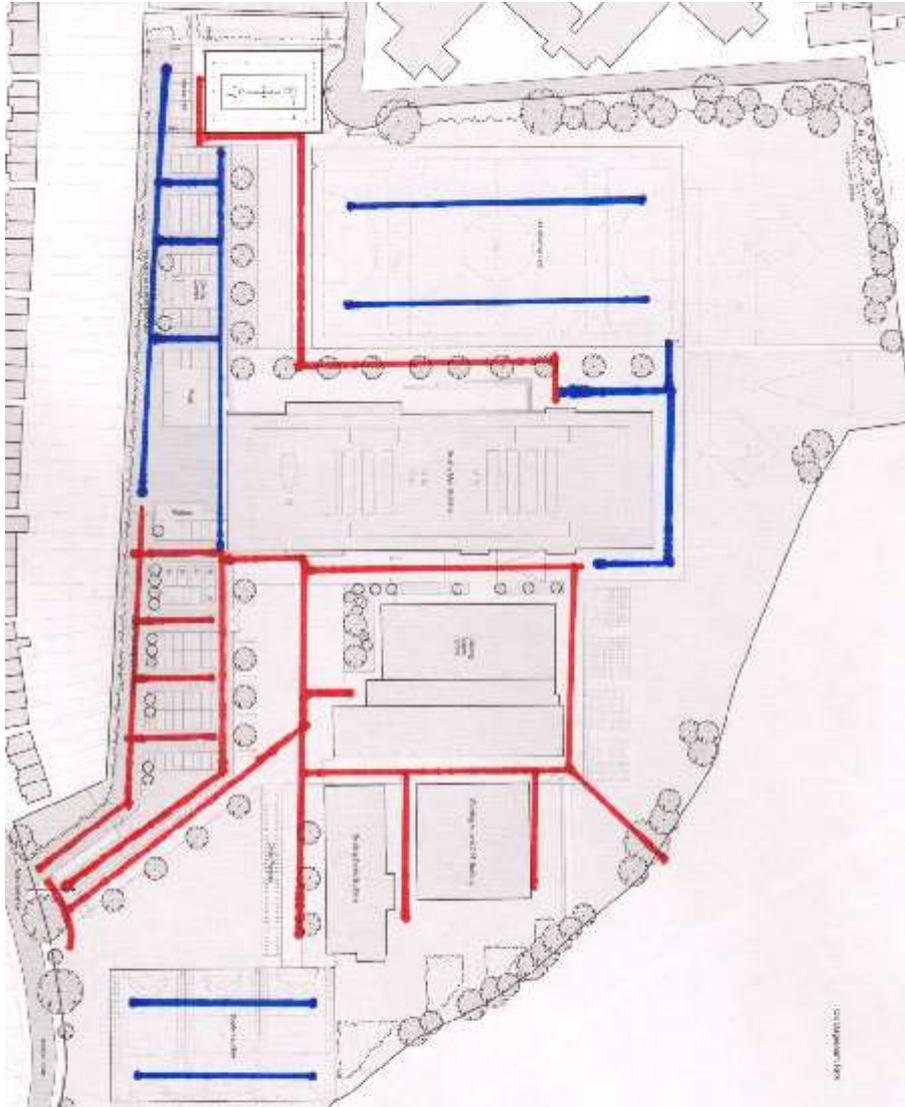

Phase 1(Red)

- Small main gate path continuing to main front foyer of the school and the first half of the car park
- Main front foyer in a direct line to the two front dining hall doors and the muga main gate
- Pathway to main double gates to adjoin the direct line from the main foyer
- "Dished" set back area at the front of the main gates.
- Front of Leisure Centre to adjoin with point above.
- Pathways between the Leisure Centre, Whitbread building and Dining Halls including steps
- Walkway area from the main building to the new Maths block
- Pathway from North east building, new building, exit across the back of the Leisure Centre to adjoin with point above.
- Retained estate: Rear of Whitbread centre ramp to boundary of the retained estate and the PFI estate
- From bottom of ramp to the rear gate near muga
- Evacuation route leading to old Dagenham park

Phase 2(Blue)

- Pathways and steps all along the west of the new school.
- All-weather pitch
- The MUGA pitch
- All broad walks
- Rear car park

LoR FM with School FM will review any damage occurring to road or pavement surfaces after the period of heavy snow fall and gritting. No actual lead time can be set in this document as this is normally assessed according to the level of risk associated to such damage and the prolonged period of snow fall and winter conditions
